Clubhouse Maintenance

The electrician has completed re-wiring the clubhouse.

As advised by e-mail recently, window repair has been authorised and that work is expected to commence within the next two weeks. Once work on the windows has been completed, contract work for repainting will be investigated again.

AGM Issues

A few items of concern were expressed by members at this year's AGM. Those issues generally related to money. Though included on this month's agenda, discussion concerning money was held in abeyance pending Tony preparing a forward budget into next year. A response to those issues will become clearer once the budget has been approved.

Hunter Interclub (HIC)

A reminder to those members interested in playing in this event, the Spring Session of the HIC calendar is still scheduled for Sunday 18th October.
