

What Can Pianola Do for Members?

- Personal history of results
- Performance analysis by partner and by role (declarer, defender - even dummy!)
- Partner finder
- Member directory

How to use Pianola?

The nuts and bolts of signing in

It's easy - simply **log in** using the **link on our club website** or type **<https://app.pianola.net>** into your search engine!

NB When the Club first decided to use Pianola, every member received an email with an invitation to join. If you accepted that invitation and logged on to pianola then you should already have created a User ID and password.

If you didn't - then you need to approach Ken Wilks or a committee member so that an invitation email can be resent to you.

A full description of Pianola features with tips for its use can be found in the [Pianola User Guide](#).

PS There are optional in-depth analysis tools for players who subscribe to Pianola Plus:

Analysis of your bidding accuracy and card play

Ability to replay any hand with card-by-card guidance.

You can get a 30-day free trial of Pianola Plus then after the trial it's \$10/month or \$7/month if you pay for a full year in one go (save 30%). This is arranged through the Pianola website. Read about subscribing - [Pianola Plus](#)
